V.L.S/19.1.'33.

Report to accompany the modified estimate for repairing the Purniah's choultry at Mandya.

An estimate for repairing the Purniah's choultry was sanctioned -- for Rs 4,000/- by Government intheir order No. 982-5/Muzrai 148-31-2. The building was in a dilapidaed condition and an estimate for --- repairing such a structure coud not be accurate. Hence this modified - estimate prepared as per actua requirements.

When the work was started, te Eastern side wall collapsed. Rear and Western side walls were also ot of plumb and had to be removed to a -- certain height. Many other sudry items that are not provided for in - the estimate were found quite necessary during the course of execution The building is practically completed. The modified estimate is prepare providing for all the items that were necessary for the satisfactory --- completion of the building.

Since the work was carried out partly by piecework and partly departmentally, it has become possible to make the building look new and als to add to its accommodation by constructing a rear verandah. The --- modified estimate for Rs 4,000/- may kindly be got approved.
